

New Bosch 20-bit Dinion 2X and FlexiDome 2X smart surveillance cameras

The clearest images, day or night.

Incorporating our innovative Dinion 2X technology, Dinion 2X and FlexiDome 2X Day/Night from Bosch bring the highest level of image quality to your surveillance applications. Combining our Dinion 2X digital signal processor with our proprietary wide dynamic range (WDR) CCD sensor, these cameras deliver the world's first 20-bit image processing for the CCTV market.

Take advantage of Dinion 2X technology and get the clearest possible images, even in the most difficult lighting conditions, day or night.
