

Overall understanding with an eye for detail

SemecS
sharing the essence of electronics

Win-Win

Our participation in the Electronica 2006 in Munich was a great success! We were able to exchange visions and ideas with both existing contacts and new acquaintances... sharing the essence of electronics.

As a leading service provider on the EMS market, we strive to develop these contacts into a long-term partner relationship, aiming towards a win-win situation.

In any case, there was definitely one winner, the winner of the African safari.

adventure. The word PRINT was the correct answer to our contest.
Mr. has won the safari.

Nevertheless, also for the non-prize winners Semecs has a lot to offer. We would be very interested in sharing this with you. Please get in touch with your existing contact or with our International Marketing & Sales Department;
